Warwick Economics Summer School 2016

Principles of Economics

Everything you need to know
as a non-economist

17 July – 5 August

Excellence in the Heart of England

The Warwick Economics Department is widely recognised as a world leader in economic research and education. Our exciting Summer School will enable more students to benefit from our excellent teaching and academic expertise.

Everything you need to know as a Non-Economist - the Principles of Economics

Economics is everywhere and it can be used to explain many aspects of everyday life. That is why everyone should have a basic understanding of the discipline.

The Department of Economics offers a prestigious Warwick Economics Summer School which includes a unique and exciting opportunity for non-economists to gain a sound understanding of the key principles of Economics.

"I have had a life changing experience that I will never forget."

Taught in a non-technical way, this course is open to anyone over 18yrs who is curious about Economics and why it has such a major impact on our lives. There are no specific entry requirements.

We welcome:

- ▶ Undergraduate and postgraduate students who are currently studying any subject but who wish to enhance their skills, knowledge and CV.
- ▶ Students who wish to prepare for university.
- ▶ Professionals for whom an understanding of Economics would be a huge benefit.

This course will provide an excellent foundation in Economics and help students to understand the important decisions made by individuals, firms and governments. It will allow students to make better decisions themselves and to answer questions that we ask ourselves on a daily basis, ultimately providing a distinct career advantage.

This course is the equivalent of a 15 CAT module from an undergraduate degree. In the European system, it is worth 7.5 ECTS and in the US system it would be equivalent to approximately 3 credits.

Inspirational Evening Programme

Reflecting Warwick's enterprising approach, our Summer School also offers a unique and inspirational evening programme of interactive sessions with eminent economists and public figures. Previous speakers have included Nobel prize winner, Professor George Akerlof, Author of *Why Nations Fail*, Professor James Robinson and Former Cabinet Secretary Lord Gus O'Donnell.

Residential Packages

We have a range of accommodation and catering packages to suit all tastes and budgets.

"I still have a long way to become a good economist, but you've all inspired me in so many ways in just those three weeks. I'm really excited to go to university next year after the taste of uni life."

Alice Mpepu,
Principles of Economics
2014

Social and Cultural Programme

A highlight of the Summer School is our exciting social programme which includes:

- ▶ Day trips to London, Stratford-Upon-Avon and Oxford
- ▶ Welcome and farewell dinners
- ▶ Curry and quiz night
- ▶ Pizza and film night
- ▶ Gala dinner
- ▶ Sports
- ▶ Afternoon tea with the Head of Department

All of this gives you a great opportunity to get to know your Summer School colleagues and is all INCLUDED in the fee.

Other Courses

We also have a range of summer school courses aimed at current Economics students including core and specialist courses, for more information, please see warwick.ac.uk/wess

"It will broaden your horizons;
what I got exceeded my
expectations."

Sun Mengjiao
